

# Student Exchange Program

## Course Catalog for the Academic Year of 2019-2020

### Course attendance

Students may participate each semester in maximum five courses. Attendance is mandatory in all courses. Missing lessons will be reflected in the final grade of the course. Up to three justified absence from classes will be accepted (for example: emergency matter, doctor's note). Such cases of absence should be notified to your lecturer immediately. Students are required to arrive on time for classes. Teachers are entitled to treat any single case of lateness and/or repeated lateness as an unjustified absence.

### Course assignments

Please check the exam/final assignment date/schedule before registering to a course. Exchange students cannot take exams on different dates than the regular exam date. You cannot join the course unless you are able to stay in Israel for the final exam. Students will not be allowed to leave a course early, unless indicated differently.

### Regular Hebrew-taught courses at TAU

Students whose Hebrew is good enough and choose to take courses at the regular university program should check the courses available at the faculties websites, and then check with the Exchange Office (i.e. the Office of International Academic Affairs) the possibility to register to specific courses.

### Important information

- Exchange Students can choose English-taught courses from the programs/departments in the table below (for detailed information regarding the courses which are open to exchange students in each program please read the booklet thoroughly).
- Bachelor's students (=undergraduate students) can only take Bachelor's level courses and **cannot take master's level courses unless indicated differently.**
- Master's students (=graduate students) can choose from both bachelor's and master's
- Registration for courses is pending availability. We will make every attempt to accommodate your preferences.

- Please check the course prerequisites mentioned in this course catalog before completing the course choices form
- Please notice that there may be changes in courses or courses schedules that you may check directly on the relevant faculty's website, appearing in each section.
- Spring Semester students cannot join full-year courses.
- Courses with less than 10 students might be cancelled.
- TAU does not permit, under any circumstances, taking final exams early. When selecting courses, it is thus very important to note below if there is an in-class final as this date/exam cannot be changed. Early departures from the program are not approved, nor are early or exception exams

***Starting dates, duration, and ending dates of individual courses may vary from one department to another. Please make sure to check the dates of the courses you are registered for.***

**There may be courses that appear on the website of each department and do not appear in this catalog. These courses are not open for Exchange Students.**

**Please remember to check that you are not signing up for overlapping courses**

**PROGRAMS OFFERED WITHIN THE STUDENT EXCHANGE PROGRAM:**

Program / Department	Degree	Comments
Study Abroad	BA	
Liberal Arts	BA	
Literature	BA	
Law	BA	Prerequisites in different courses
Exact Sciences	BA	Prerequisites in different courses

# LIBERAL ARTS

BACHELOR'S

Please note that the details may include workshops and 3<sup>rd</sup> year seminars which may be open to non-liberal arts students provided that they have relevant background and by permission of the program head.

Registration for courses is pending availability though we will of course endeavor to accommodate your requests.

**Important:**

Please check the program page [online](#).

Some courses are short term courses, others last longer and run in parallel with the regular TAU calendar.

Students are welcome to take any of the other courses on the list, however, it will be their responsibility to make sure that it fits their schedule and that they're able to stay for the duration of the course otherwise they risk forfeiting the grade.

# THE BUCHMANN FACULTY OF LAW

BACHELOR'S

Courses [Website](#)

We calculate TAU credits as follows:

- 1 credit equals 13 academic hours. Each academic hour is composed of 45 minutes. Accordingly, a one credit course will meet for 585 minutes.
- A two-credit course equals 26 academic hours, i.e.1170 minutes.

Further, TAU Law's drop/add policy is quite strict and we would like to emphasize our policy:

- Semester-long courses: Add/drop during the first two weeks ONLY.
- Quarter-long & condensed courses: Add/drop must be done before the third lesson ONLY. (Class may meet twice/week, so the period is shorter).

**Class attendance is mandatory. Students who miss more than three meetings of a semester course, or more than five sessions of an annual course, or attended less than 75% of the meetings in condensed courses, will not be eligible to take the final exam.**

**Workshops and Seminars: class attendance is mandatory.**

We would like to emphasize that several courses have certain **prerequisites**. (see course description).

**Please make sure that you have the prerequisites needed otherwise you might not be able to attend the class.**

**Generally, classes conducted in English do not overlap, but in the rare case of a conflict, it will not be possible to take classes with conflicting meeting times.**

You should be aware that most of the courses are intensive courses, running over a short period of time, and may contain two or three class meetings per week (Changing). This entails a heavy reading and work load during the duration of the course.

Please check « changing » courses schedule within the course description at the website (the website will be adequate in a little while)

## Course Description

### From Generation to Generation: Reading the Bible Through Other Eyes

A course about the Bible and 'Reception', taught in English by Dr Diana Lipton, Bible Department, Tel Aviv University.

#### Course Outline

Among the most creative and engaging areas of academic Bible studies to emerge in recent years is 'reception' studies – how the Bible has been 'received', used, interpreted in art, music, literature, politics, popular culture and more. In this course we will explore challenging methodological and theoretical questions around reception studies: How should we navigate between the conscious, subconscious and unconscious, whether the 'receiver's' or the scholar's? Is academic scholarship itself reception? Who is qualified to be an expert in this complex field? What if anything can we learn about the Bible from reception studies? Mostly, though, this course will be 'hands on'; we will explore fascinating examples of how influential biblical texts and themes have been received – from Adam and Eve and the Akedah, through Samson and Delilah and the book of Ruth, to Lamentations and Ezekiel's Dry Bones. This course will be taught and assessed in English.

- Session 1: Reception Manifesto
- Session 2: The Akedah Through Other Eyes
- Session 3: Other Women in the Bible
- Session 4: The Bible and the Way We Are
- Session 5: Jews, Christians and Muslims Read the Bible
- Session 6: Challenging Authority with the Bible
- Session 7: Responding to Crisis with the Bible
- Session 8: Drawing Lines with the Bible
- Session 9: Biblical Enemies
- Session 10: The State of Israel
- Session 11: Class Presentations
- Session 12: Class Presentations

#### Course Assessment

This course will be assessed by a class presentation with a power-point presentation, in English (75%), and a take-home multiple choice 'American' exam (25%), also in English.

Presentations should focus on **THREE examples** of 'reception' – paintings, poems, songs, religious interpretations, films, advertising, popular culture etc. They will ideally follow this **format**: (a) a short introduction to the biblical text under discussion; (b) a question, difficulty, theme, or idea generated by the text; (c) the three 'reception' items; (d) some conclusions. **Possible presentation topics include**: The creation story (Genesis 1), The Tree of Life (Genesis 3), Abraham, Sarah and Hagar (Genesis 16 and 21); Jacob's Dream (Genesis 28); Jacob wrestling with the angel (Genesis 32); Moses is found by Pharaoh's daughter (Exodus 2); Moses and the burning bush (Exodus 3); Moses striking the rock (Exodus 17/Numbers 21); The giving of the Ten Commandments (Exodus 19-20); The Golden Calf (Exodus 32); Amalek (Exodus 17 / Deuteronomy 23); The death of Nadav and Avihu (Leviticus 10); The spies enter the land (Numbers 13); Joshua and the battle of Jericho (Joshua 6-7); David and Goliath (1 Samuel 17); David and Bathsheba (2 Samuel 11-12); Solomon and the two prostitutes (1 Kings 3); Solomon's Wisdom (1 Kings 5:9-14); Solomon and the Queen of Sheba (1 Kings 10); Miracles of the prophet Elijah (1 Kings 17) Naboth's Vineyard (2 Kings 21); Ezekiel's 'chariot' (Ezekiel 1); Psalm 23, 'The Lord is my shepherd'; Proverbs 31:10-31 ('*Eshet Chayil*', the woman of valor); The lovers in the Song of Songs; Queen Esther; The figure of Job (especially Job 1-2 and 42); The figure of Daniel or a specific scene from the book of Daniel (Daniel 1-6).

### Course Lecturer

My name is Diana Lipton. For my first degree, I read English Literature at Oxford University and, after a period of investment banking and then full-time motherhood, I completed a PhD in Hebrew Bible at Cambridge University. My dissertation was published in 1996 as *Revisions of the Night: Politics and Promises in the Patriarchal Dreams of Genesis*. From 1997 to 2006 I was a Fellow of Newnham College, an all-women's college at Cambridge University. From 2007 to 2011 I was Lecturer then Reader in Hebrew Bible and Jewish Studies at King's College London. In 2011 I moved to Israel, and taught Bible at Rothberg, Hebrew University's International School and at Tel Aviv University. In addition to my first book, I've published: *Longing for Egypt and Other Unexpected Biblical Tales* (2008), *Lamentations Through the Centuries* (2012, with Paul Joyce), *From Forbidden Fruit to Milk and Honey: A Commentary on Food in the Torah* (2018), and several edited and co-edited collections. I have two sons, Jacob and Jonah, and I live in Jerusalem with my husband, Chaim Milikowsky. You can find my CV and some of my publications on [Academia.edu](#). I blog occasionally at the [Times of Israel](#).

# INTERNATIONAL PROGRAM OF ENGINEERING

BACHELOR'S AND MASTER'S

Students should consider prerequisites for each course they chose.

Students that are taking courses from the B.Sc. in Electrical and Electronics Engineering as part of an exchange route should track the following process & information.

International school of engineering [Website](#)

#### [Academic Calendar](#)

Please note that STEM courses are listed properly and separately. Please read this thoroughly, while considering the start date of semester and end of exams period.

#### The Process:

- 1) Be in touch with your perspective office (Exchange) & fill out the STEM registration form, as per the needed steps.
- 2) Contact should be made directly with your perspective office and not with the EE program office.
- 3) Once courses are confirmed, please follow the steps with your perspective office to confirm your final registration to exchange or study abroad.

#### Upon arrival to campus, please follow the steps below:

1. Email the EE program office; Ronit & Jennifer, [ronitperez@tauex.tau.ac.il](mailto:ronitperez@tauex.tau.ac.il) / [jenniferg@tauex.tau.ac.il](mailto:jenniferg@tauex.tau.ac.il) and schedule to meet to review all information about the EE courses.
2. During the meeting, review course registration, student details, program calendar, etc.

#### Things to remember:

1. Changes to schedules are implemented into the EE **Google Calendar**, which will be provided to you during your meeting with the EE program office.
2. All students are allowed to take **up to 2 exams**: Moed A and Moed B. If a student is not present during one of the exams, the final grade will be calculated throughout the other exam. If a student decides to take both exams, it is important to remember that the final grade will be based on the second exam (Moed B). Therefore: If a student passes first exam (Moed A) and fails the second (Moed B)

then the final grade for the course will remain the later one (failure). No other chances exist to pass the course.

3. **Classes schedule** might change before and during the semester, extra classes specially. This will be communicated to the student via the Moodle system and/or the personal information site (of TAU).
4. **Exams schedule** can be changed at any moment and students will be made aware as early as possible via the student's personal info site and/or the EE Google calendar. Students should make all efforts to be here for both sets of exams, just in case.
5. It is **forbidden** to be in touch with the **teaching staff** during/ after the exams period, and ask for a change of grade or another chance. These are university laws which can result in a judiciary hearing within the faculty and also failing the course. Only option to update the grade will be via the system appealing process, right after exams grades & notebooks are uploaded.
6. If a student decides to **leave the course** for any reason, please email your perspective office along with the EE program office and include your full name, student ID number and request, so we can remove you from the course. You can be removed from a course up to 3 weeks into the semester. If a student leaves without notice, he will receive a no-show grade (260) which is equal to a failure as far as we are concerned.
7. Once a student is on campus, they **cannot ask to change requested courses**/be registered for a course they didn't originally sign up for and/or received its confirmation.

First year courses are being scheduled by the Israeli program, faculty of Engineering. These courses will not be part of the Google calendar, but information should be available via Moodle.

Exams schedule is defined by the Israeli program, faculty of Engineering. These exams might not be a part of the Google calendar, but information should be available via Moodle & personal info site at TAU

**Please read carefully the following notes before completing your selection:**

1. Please send course selection by [mail](#) to the Exchange office by indicating at the "subject" section: **Engineering course selection – full student name**  
With every request please make sure to state:
  - **The requested semester**
  - **Attach transcripts** (updated ones)
  - **Filled form** **in a Word document (do not scan or save as PDF)**. The form will be attached separately to the email sent to you regarding the course selection or can be asked for by [mail](#)
2. The student can send **up to 2 forms**.
3. Requested courses are maximum of **4**.  
-If a second request form is made: suggested courses (we suggest them in section B)

- should be added to requested courses, section C (assuming student is interested).  
-A suggested course is considered an approved course.
4. Section C of the form should be filled in by the student only **after** he/she is approved for the program, and he/she chose the courses out of the approved ones from section B of the form.
  5. I do recommend that the student applies to courses within similar fields of study and year (for example 2<sup>nd</sup> year student should apply to 1<sup>st</sup> year & 2<sup>nd</sup> year courses). I recommend this action since the dean will possibly approve an advanced course to a 3<sup>rd</sup> year / 4<sup>th</sup> year student and not prior, due to **prerequisites**. this is also good for the student that might not be sure what are the course prerequisites.
  6. **Communication** – student should communicate directly to the international office (Exchange programs, not EE office) up to the point they arrive to Israel to study in the program.
  7. Names and numbers to the EE courses should be supplied to the student prior to filling in the form.  
a correct list for this upcoming Semester is just below. **Please note the changes regarding Year 1.**

***YEAR 1 overall schedule, curriculum & content of courses- will be determined by the faculty of Engineering, and are subject to change at any time. The EE English program does not take the responsibility to any conflict caused by the possible changes, nor to the initial published information.***

We will have the courses schedule of year 1 only in September 2019, and also then, the faculty might decide to make changes that are out of our hands.

**Registration** to Y1 courses will be made upon arrival of the student to campus, and agreement to the terms.

\*please note the courses will be taught in English, but they do not include only English speakers, as they are open to Israeli students as well.

**Years 2 to 4** are being planned by us, and will also be updated from time to time, as per the faculty limitations. Students must be aware of that, before they are asking to be part of the exchange program. Final schedule will be published after Year 1 schedule is complete (as some students from years 2+3 are re-taking courses).

**Registration** to Y2-4 courses will be made upon arrival of the student to campus.

The list includes the Prerequisites courses, to which students can find online syllabus/ description at: <https://international.tau.ac.il/engineering/?id=term-0>

**Students should consider prerequisites for each course they chose to apply.**

**Fall Semester**

# ENVIRONMENTAL STUDIES

MASTER'S

3<sup>RD</sup> YEAR BACHELOR'S

**Fall Semester:** October 27 2019-March 6 2020 (including exam period)

**Spring Semester -** March 8 2020-July 17 2020 (including exam period)

**Requirements:**

- MA students with an average of 83 and above
- Third year BA students with an average grade BA of 83 and above
- Sufficient English level
- A description of the reason for wanting to join the course

In order to apply for courses in this department, please complete [this form](#)

The request will be forwarded to the Professor for approval

	1654.4038	The Shia	Dr. Elisheva Machlis	SUN 9:15-10:45 SUN 16:15-17:45	Gilman, 497	4
	0654.4127	Minorities and the State in the Middle East	Prof. Bruce Maddy-Weitzman	TUES 12:15-13:45 THUR 12:15-13:45	Gilman, 317A	4
	0654.4213	The History and Politics of Weapons of Mass Destruction in the ME	Dr. Brandon Friedman	TUES 16:15-17:45 THUR 16:15-17:45	Gilman, 362A	4
	1654.4006	The Arab-Israeli Conflict	Dr. Itamar Radai	MON 10:15-13:45	Dan David, 212	4

## Course Description

**Fall 2019 / October 27 – January 26, 2020**

### **Islam and Politics / Prof. Uriya Shavit**

The course examines some of the most topical, important and intellectually engrossing issues in Middle Eastern Studies: why do some societies democratize and other do not, and what are the roots of the "democracy gap" in the Middle East? What are the ideological roots of the Muslim Brothers, al-Qaeda and ISIS? Who are the *salafis*? How do Muslim intellectuals understand concepts such as liberalism, communism and scientific freedom? Does Facebook advance or injure freedom in the Middle East? And why did Israel transform into an enemy-mentor in Arab liberal – and Islamist – thought?

### **Middle Eastern Societies: Tradition and Modernity / Dr. Daniel Zisenwine**

This course offers a graduate level introduction to themes and theoretical perspectives related to the dynamics of Middle Eastern societies, with an emphasis on the interplay between tradition and modernity within them. We will explore topics such as the shift from traditional to modern social structures, minorities, urbanization, and the rise of oil rentier states, new social classes, civil society, and youth. Weekly class sessions will be linked to assigned readings that students will be expected to prepare, begin with introductory comments by the instructor, followed by a class discussion/critique of the assigned topic.

**Spring 2020 / March 8 – June 25, 2020**

### **The Shia / Dr. Elisheva Machlis**

### **Minorities and the State in the Middle East / Prof. Bruce Maddy-Weitzman**

The post-World War I territorial states that emerged on the ruins of the Ottoman Empire and out of French North Africa were based on a particularly doctrine of state nationalism which emphasized Arab and Turkish ethnicity. Minority ethno-linguistic and religious communities were expected to assimilate into the dominant, "enlightened" polities being fashioned, or face the consequences. This course will examine the efforts by Middle Eastern states to subsume their minorities into this dominant paradigm, and the various responses of the subordinate groups. Special attention will be devoted to the Kurds and Berbers, the two largest ethno-linguistic communities in the region, particularly in light of their newly assertive identity movements in recent years.

### **The History and Politics of Weapons of Mass Destruction in the ME / Dr. Brandon Friedman**

This course is a graduate level introduction to the history and politics of weapons of mass destruction ("WMD") in the Middle East, with a focus on nuclear energy and nuclear

weapons. This course is not intended to examine nuclear strategy or theory, but it may touch on those issues as they relate to the various cases in the Middle East. Instead, this course will focus on the existing empirical scholarly literature on these issues with an emphasis on analyzing how historical context (change and continuity in time and place) has influenced WMD developments in various countries of the region.

**The Arab-Israeli Conflict / Dr. Itamar Radai**

This seminar examines key issues in the study of the history of the Arab-Israeli conflict in three complementary levels: Zionism and Palestinian nationalism, Israel and Arab countries and Great Powers involvement. It seeks to analyze a series of historical and methodological questions and controversies stemming from different methodological and ideological points of departure and their manifestation in the historiography of the conflict. Among the major points to be discussed are the evolving conflict between Zionism and the emergent of Palestinian nationalism; the debate over the 1948 war; the failure of post-1948 peace efforts, the road to the 1956 war, Arab politics and the reemergence of Palestinian nationalism; the road to the 1967 and 1973 wars, the evolution of the peace process and the failure of the Palestinian Israeli peace efforts.

# CONFLICT RESOLUTION AND MEDIATION

## MASTER'S

### Fall semester

October 29 2019 – January 23 2020. Assignment writing period: January 24 – February 22 2020

Course description will be available at a later stage

Semester	Course Number	Course Name	Lecturer	Day/time	Location	Credits	Syllabus

# COLLER SCHOOL OF MANAGEMENT

MASTER'S

Each term at Collier School of Management runs 13 or 14 weeks and is divided into two modules. **Exchange students can stay for two modules or come for one module only.** Exchange students are expected to take 4-6 credits of courses per term. Most of the courses are one credit, a credit being equivalent to two academic hours once a week, for 14 weeks. For the concerted 7 week module, the time is four academic hours. **One credit at Collier is equivalent to 4 ECTS.**

**Every single module course is 1 TAU credit and the full semester (module 1+2) courses are 2 TAU credits**

Please note the following:

- All courses are at an MBA level
- Syllabi can be found in the folder attached to this email. Some syllabi are not yet updated, please disregard any dates/times mentioned.
- Full semester courses are worth 2 Collier credits, Modular courses are worth 1 Collier credit.
- 1 Collier credit = 4 ECTS
- Note that all course offerings, locations and times are subject to change.
- Course acceptance is based on spot availability, course spots will awarded at the discretion of the exchange office

The locations and times may still change.

Link for courses will be published at a later stage.
